

Signing up and signing in

All you need is your email address and a password. There is no code to set up.

Create your account (one time)

1. Go to **cyassets.com** and tap **Create an account**.
2. Type your **email address**.
3. Choose a **password** of at least 8 characters. A short phrase you'll remember works well, like "blue garden gate". You'll see the letters as you type, so you can check them.
4. Type the same password again in **Confirm password**, then tap **Create account**.
5. Open your email. You'll get a message from **Cover Your Assets**. Tap the link in it to confirm your account.
6. Go back to cyassets.com and sign in (below).

Tip: On the "Check your email" screen, tap **Add CYA Check to my contacts**. Then, whenever an email looks suspicious, you can forward it to CYA Check by typing "CYA".

No email? Wait a minute or two, then look in your **spam** or **junk** folder.

Sign in

1. Go to **cyassets.com** and tap **Sign in**.
2. Type your email address and password. (Your phone or computer may fill them in for you.)
3. Tap **Sign in**. That's it.

You stay signed in on that phone or computer until you tap **Sign out**.

Forgot your password?

1. On the sign-in page, tap **Forgot your password?** (under the Sign in button).
2. Type your email address and tap **Email me a reset link**.
3. Open the email from **Cover Your Assets** and tap **Reset password**.
4. Type a new password twice and tap **Save new password**. You're signed in.

Stay safe: Cover Your Assets will never phone you or text you asking for your password. Our emails always come from **cyassets.com**.
